

# RAZOR WIRE

**GLORZAR**

GLORAZ Razor wire is a high security fencing system, designed to prevent intrusion along perimeter barriers. GLORAZ is fabricated from stainless steel and high tensile wire, which is impossible to cut off with standard tools. It is the most effective guard and the best obstruction for surroundings safety. The sharp blades shall scare the invaders.

It is suitable for military zone, factory, villa, school etc. Also, it is easy to install and apply to road obstruction, fence enclosing, wall, that will bring the best guarding function to you at lower cost.

## Application

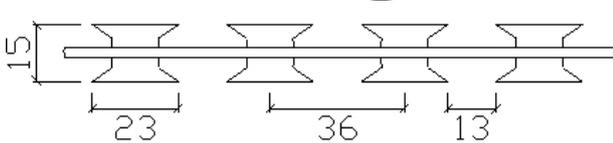

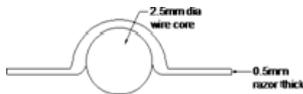

## Materials

Stainless Steel 304  
 Stainless Steel 316  
 High Tensile Galvanized Steel Wire; 1400-1500MPA  
 Galvanized Steel Wire

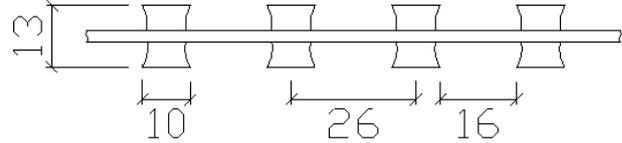

## Specification

*Design of barbed tape/razor wire is based on British Specif: BT2396 -1966*

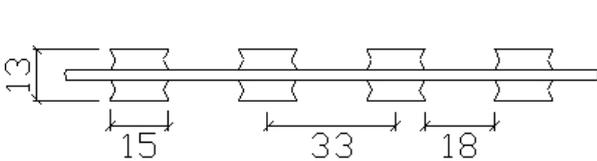

## Blade Profile

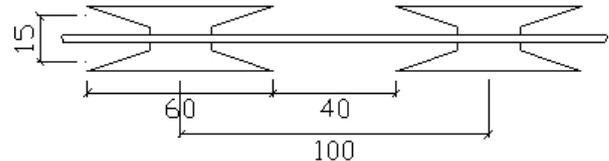

GR-A (STANDARD BLADE)

GR-B (SHORT BARBED)

GR-C (MEDIUM BLADE)

GR-D (SUPER BLADE)

Razor Wire Concertina					
Coil Diameter	500mm	700mm	700mm	960mm	960mm
Recommended Stretch Length	10m	14m	10m	11m	20m
Coil Diameter When Stretched	450mm	610mm	610mm	860mm	860mm
Spiral Turns Per Coil	56	74	55	54	67
Clips Per Spiral	3	5	5	5	0

Razor Wire Single Loop			
Coil Diameter	500mm	700mm	960mm
Recommended Stretch Length	11m	12m	8m
Coil Diameter When Stretched	480mm	680mm	940mm
Spiral Turns Per Coil	45	41	41
Clips Per Spiral	0	0	0
